

S AND Y INDUSTRIES
ELECTRONIC MANUFACTURING SERVICES

March 17th 2020 – Covid 19 Announcement

As many of you are aware, the Covid19 virus is spreading rapidly and having an impact on people, businesses, and economies around the world. As a participant in a global supply chain, S and Y Industries has been monitoring the situation closely, and will continue to do everything possible to minimize delays to our customers and keep our team members safe.

Based on the dynamic and rapidly changing nature of the outbreak, we are prepared to implement an emergency operation plan (if needed) that will allow our facility to function with minimal production staff, and telecommuting for key front office personal. We are hopeful that the implementation of this plan remains unnecessary, but we felt it important to let our customers know that we are prepared. Additionally, we are temporarily suspending all non-essential travel and customer visits to our facility until further notice. We apologize for any inconvenience this creates.

Lastly, we ask for patience. This is an unprecedented situation, and while we hope the virus does not delay our production schedule, we recognize that it has the potential to do so. We are in this with you, and will make every effort to minimize negative impacts, and will communicate delays when/if they occur. We cannot be successful without the success of our customers. As we move forward, rest assured that we will do the right thing by our customers, and work to keep our team safe.

Sincerely,

John Foust

Senior Vice President

S and Y Industries Inc.
