ELECTRONIC MANUFACTURING SERVICES

## Cindi Terry named new Inventory Control Manager

S and Y Industries Inc., an electronics contract manufacturer based in Winfield KS, is pleased to announce that Cindi Terry has been chosen to lead S and Y's Inventory Control Team. In her position as the Inventory Control Manager, Cindi will oversee the day to day operation of both surface mount and through-hole cages and ensure the production team receives material kits in a timely and efficient fashion.

To assist Cindi in her new role S and Y is deploying additional technology in the form of scheduling software for its new ERP system. The scheduling tool will allow the operations team to set priorities on which assemblies should be kitted first to ensure the inventory control team is efficiently supporting S and Y's operational needs. "I'm very excited and thankful for this new challenge and look forward to leading this team.", stated Terry.

Cindi brings a wealth of experience to her new role as she had previously work with S and Y team as an Administrative Assistant / Marketing Coordinator. Before joining S and Y, Cindi spent the majority of her career in the classroom where she was a Junior High English teacher for 18 years. "Teaching has always been a passion for me, and I think the skills required to be a successful teacher will serve me well in this role.", said Terry. Cindi's organizational skills and positive attitude are attributes that will serve her well in this position.

When she's not busy working at S and Y, Cindi enjoys spending time with her husband and children, and working in her garden. We are excited to have Cindi on the team and look forward to the new ideas she will bring to our team.
